SUMMARY

Mobile engineer with 5+ years shipping React Native and Expo applications to the App Store and Google Play — five apps live in production, including a regulated fintech banking app and an AI health platform serving 1,000+ users. Builds on a single cross-platform codebase with native-level iOS/Android parity, and owns the Nest.js services behind the app when the product needs it.

TECHNICAL SKILLS

Mobile	React Native, Expo, EAS Build, Ionic, Nativewind, live GPS & background location, offline sync, App Store & Google Play releases
Languages	TypeScript, JavaScript, SQL
Frontend	React, Next.js, Vue, Nuxt, Zustand, Redux, React Hook Form, Material UI, TailwindCSS
Backend & Data	Node.js, Nest.js, Express.js, REST APIs, PostgreSQL, MongoDB, MySQL, Supabase, Prisma
Practices	CI/CD, code review, accessibility, performance profiling, cross-platform parity, Git, Agile

PROFESSIONAL EXPERIENCE

Mobile App Maintainer — SwiftPay MFB	Jul 2026 – Present
- Maintain the SwiftPay banking app on iOS and Android, triaging and fixing critical production bugs affecting live transactions in a regulated fintech product. - Ship new features and keep both store releases healthy on a single release train.	

Freelance Full-Stack Engineer — AppFur	Apr 2026 – Present
Built Mecfur end to end: a React Native app with live GPS tracking on a map view, backed by a Nest.js/MongoDB service for real-time proximity search and matching. Live on Google Play.	

Mobile Engineer — Runwae	Jan 2026 – Jun 2026
- Architected a cross-platform React Native and Expo app on a unified iOS/Android codebase. - Led UI/UX implementation from design handoff to shipped feature.	

Mobile Engineer — 9Lives	Jul 2025 – Mar 2026
- Built and maintained a React Native/Expo app on a shared codebase with native-level performance parity across iOS and Android, working directly with the founder on scope. - Integrated third-party APIs via Expo, including speech transcription. Live on the App Store under Benekan Technologies.	

Frontend Engineer — Evoolv	Nov 2025 – Feb 2026
Established UI/UX engineering standards and a reusable component library, built API integration layers for third-party services, and implemented state management and CI/CD workflows.	

Frontend Engineer — BrandDrive	Oct 2024 – May 2025
Shipped interactive dashboards, modals and dynamic filtering with Material UI, Zustand and TypeScript, built form handling and validation with React Hook Form from Figma prototypes, and implemented Zustand state management to improve data flow across components.	

SELECTED PROJECTS

Clinsight — AI platform turning medical lab reports into plain-language results; iOS/Android team lead, both platforms at feature parity. Live on both stores, 1,000+ users. Next.js, React Native, Expo	
Lovla — Couples' app with a real-time collaborative painting canvas. React Native, Expo, Supabase, Zustand	

EDUCATION

BSc, Software Engineering — MIVA Open University	In progress
BSc, Economics — National Open University of Nigeria (NOUN)	In progress
Diploma, Software Engineering — National Institute of Information Technology (NIIT)	Completed
